

Press release March 2018

Chemnitz, 9th March 2018: **Chemnitz-based software developer digitronic® computersysteme gmbh attends RSA Conference in San Francisco for second time**

By Peter Liebing

RSA® Conference 2018

San Francisco | April 16 – 20 | Moscone Center

The IT security fair/conference "RSA" is taking place in San Francisco for the 27th time. The RSA conference continues to be the leading fair/conference for IT security around the globe and is attended by people from all over the world.

As a co-exhibitor of the "German Pavilion", which was initiated by TeleTrust, the Federal association for IT security, digitronic® will be present in Hall North Expo, Booth no. 3927. In the context of the German joint exhibition "IT Security made in Germany", digitronic® will also present their All-In-One Compliance solution, which was just recently awarded the GLOBAL EXCELLENCE GOLD AWARD in the category GDPR (EU-DSGVO) by Info Security Products Guide.

On the occasion of a German-American dialogue, TeleTrust, the German-American chamber of commerce, Symantec and Fairfax County Economic Development Authority will organise a Security Solutions Showcase on the topic of **Industry 4.0 & IoT Changes Security Challenges**. This showcase will present current German innovations in the field of IT security, and Matthias Kirchhoff, manager of digitronic® computersysteme gmbh, will give a talk on the topic "From one human identity to 'millions' of digital identities without security?".

Interested parties can register for this event until 10th April 2018 by writing an e-mail to info@teletrust.de. The event will take place on 16th April 2018 between 01:00pm and 4:30pm at DLA Piper - 555 Mission St - San Francisco.

Visitors of the exhibition are also able to register for a free EXPO pass at <https://ae.rsaconference.com/US18/portal/newreg.wv> with the following Expo Pass Code: X8SGERMA.
